

CRYPTIC DANCE

they have given a set of dancing ciphers which correspond to each English alphabet for this i searched in google the dancing ciphers decoder website and they provided with how each dancing characters corresponds to each letter , then i uploaded all the character present in the above image and got the flag which we are required to find

The cryptic dancer decode that i used is given below

ciphersarecool

FLAG : {ciphersarecool}

i also took the flag (ciphersarecool) and also applied it in the cryptic dance encoder and the results matched with the given image
